About Preview

TAF College The African Founders College is a practical skills and entrepreneurship institution built specifically for Ghana's next generation of professionals, business owners, and innovators. We don't teach students what to think. We teach them how to build.

In partnership with the Julian Opuni Foundation, TAF College offers 20 tuition-free scholarship places per cohort, real venture experience, industry mentorship, and a campus media programme that puts student stories in front of the world.

Why Choose TAF College Value Propositions

Value Proposition	What It Means	Who It's For	Evidence
Hands-on from Day 1	70% of every programme is practical. Students produce real work, serve real clients, and operate real businesses from day one.	Young people who learn by doing, not by listening	Four active student ventures generating real revenue
Real business experience	Every department runs a live commercial venture. Students rotate through production, sales, and management functions.	Aspiring entrepreneurs and professionals	TAF Fashion Label, Media Agency, Digital Agency, Bread Centre all operational

Industry mentorship	Every student is paired with a working professional who meets with them weekly throughout the programme and for 12 months post-graduation.	Students who need guidance beyond the classroom	40+ industry mentors in the TAF College network
Tuition-free access	20 Julian Opuni Foundation scholarships per cohort remove financial barriers for talented youth who cannot afford to pay.	Young people from underserved communities	20 scholars per cohort: full tuition, mentorship, and post-graduation support
Career-ready graduates	TAF College tracks every graduate for 12 months. Cohort 3 data shows 60%+ employed or generating income within 9 months.	Employers and parents seeking real outcomes	SOP 25 Impact Analytics Report: longitudinal graduate tracking
A movement, not just a college	The Campus Reality Media Programme documents student journeys and broadcasts them to Ghana and beyond, building a public community around the institution.	Students who want to belong to something bigger	10 monthly episodes, 10 live shows, 3,000+ digital followers and growing

TAB 02

ABOUT TAF COLLEGE
The African Founders College Accra, Ghana

Who We Are

TAF College is a practical skills, entrepreneurship, and innovation institution based in Dzorwulu, Accra, Ghana. We serve students aged 18–35 young professionals, aspiring entrepreneurs, recent school leavers, and anyone excluded from traditional university pathways who wants a real, market-ready qualification.

Every programme at TAF College is built around one question: what does this student need to know, make, or do to earn a living and build a business? The answer shapes everything the curriculum, the assessments, the mentorship, and the live commercial ventures students operate while they study.

TAF College is not a theory institution. It is a production environment. Every student who walks through the door is expected to produce, create, sell, and build from their very first week. By the time they graduate, they have a portfolio of real work, a network of real contacts, and the practical confidence of someone who has already done it.

History & Founding Story

TAF College was founded on a single conviction: that Africa’s youth employment crisis is not caused by a lack of ambition or intelligence, but by a lack of systems capable of converting ambition into economic reality. The institution was created to be that system.

Ghana, like much of West Africa, faces a structural mismatch between what young people are taught and what the economy rewards. Thousands of graduates enter the labour market each year without the practical competencies, entrepreneurial skills, or professional networks required to participate meaningfully in the modern economy.

TAF College was designed as a direct response to this systemic failure a purpose-built institution offering vocational skills, entrepreneurship education, AI and digital fluency, mentorship, and real commercial experience within a single six-month programme. The result is a graduate who is not just qualified, but ready.

What Makes TAF College Different		
Traditional Education	TAF College Model	Why It Matters
Certification-focused	Outcome-focused (employment + enterprise)	Students leave with proof of competence, not just a piece of paper
Theoretical instruction	Practical, project-based learning	Skills are demonstrated, not memorised
Exam performance metrics	Economic mobility metrics	Success = income, ventures, employment
Classroom-confined	Industry-connected and community-embedded	Students work with real clients from Month 1
One-size-fits-all	Personalised coaching and mentorship	Every student has a mentor and a Personal Development Plan
Reactive to old economy	Proactive for the future economy	AI, digital, and entrepreneurship are core to every track

TAB 03

VISION, MISSION & PHILOSOPHY

What drives everything we do at TAF College

Vision

TAF College envisions an Africa where young people are empowered not merely as job seekers, but as entrepreneurs, innovators, creators, technical professionals, problem-solvers, and builders of sustainable economic systems.

Mission

TAF College's mission is to provide accessible, practical, and future-focused education that equips underserved young Africans with the skills, mindset, mentorship, and opportunities needed to achieve sustainable economic participation and entrepreneurial success.

Institutional Philosophy

The TAF College model is built on a set of core beliefs that shape every decision the institution makes:

- Talent exists everywhere; opportunity does not and it is our role to bridge this gap.
- Education should function as a catalyst between human potential and economic participation, not merely a certification system.
- Learning must be practical, contextual, and directly connected to real-world outcomes.
- Students are not trained to consume information they are trained to execute, innovate, create, collaborate, and build.
- Failure is a part of the innovation process and must be destigmatised within learning environments.
- Africa's economic future must be built by Africans, rooted in local context and connected to the global economy.

The Guiding Philosophy

Learn → Build → Operate → Generate Revenue → Scale → Reinvest

This is not a slogan. It is the operational model every TAF College department follows, every academic year.

TAB 04

CORE INSTITUTIONAL PILLARS

The six foundations that define TAF College's culture and operations

TAF College is structured around six foundational pillars that collectively define its culture, operations, and strategic direction. These are not aspirational values on a wall. They are the operational standards by which every department, programme, and decision is evaluated.

1

Vision & Innovation

Design Thinking workshops, Innovation Challenges, Hackathon events, student-led ideation, and exposure to AI and no-code tools embedded in every programme, not added as an extra.

2

Systems & Performance

Individual student outcome tracking from enrolment to post-graduation. Monthly performance reviews. Transparent KPI reporting to partners and funders. Economic transformation as the primary success metric.

3

People & Development

One-to-one mentorship with industry professionals. Group coaching on emotional intelligence and leadership. Personal Development Plans for every enrolled student. Wellness support and psychological safety.

4

Freedom & Creativity

Open Innovation Labs for free prototyping. Creative projects assessed on process and iteration, not just outcomes. Entrepreneurship simulations and business model competitions. Student-run enterprise projects.

5

Governance & Stability

Formal board of directors and advisory council. Clear financial management. Safeguarding policies. Ghana Education Service compliance. COTVET accreditation. Annual institutional audits.

6

Purpose & Impact

Community outreach programmes. Alumni network structured to multiply impact beyond graduation. Contribution to national skills development. Long-term measurement of economic and societal transformation.

TAB 05	PROGRAMMES <i>Six tracks. One philosophy. Real outcomes.</i>
<i>All TAF College programmes run for 6 months (5 months teaching + 1 month internship or capstone project), 3 days per week, 4 hours per day. Assessment is 70% practical. Every student graduates with a professional portfolio, a real client or business track record, and a TAF College Certificate.</i>	
A	Fashion Design Programme From foundational sketching, colour theory, and fabric knowledge through to advanced garment construction, pattern making, and a final 3–5 piece collection showcase. Students operate the TAF Fashion Label: producing corporate wear, school uniforms, and ready-to-wear collections for paying clients. <i>Skills: Garment construction, pattern making, illustration, collections, branding, sustainability, client management</i> Duration: 6 months 3 days/week 4 hours/day Career outcomes: Fashion designer, brand owner, garment entrepreneur, export business
B	Digital Marketing Programme Content creation, social media strategy, paid advertising (Meta Ads, Google Ads), SEO, email marketing, and client acquisition. Students run real campaigns for real clients through the TAF Digital & AI Agency. Month 5 focuses entirely on freelancing, personal branding, and securing income before graduation. <i>Skills: Content strategy, Meta Ads, Google Ads, SEO, email marketing, analytics, freelancing</i> Duration: 6 months 3 days/week 4 hours/day Career outcomes: Marketing consultant, agency founder, freelancer, in-house digital marketer
C	Applied AI Programme AI literacy, prompt engineering, generative content creation, AI for productivity, and vibe coding. Students learn to use AI tools confidently, ethically, and commercially. Capstone project involves applying the full AI workflow to a real business or community problem. <i>Skills: Prompt engineering, ChatGPT/Claude/Gemini, automation, Canva AI, vibe coding, AI workflow design</i> Duration: 6 months 3 days/week 4 hours/day Career outcomes: AI consultant, productivity specialist, tech entrepreneur, freelancer
D	Photo & Video Production Programme Camera handling, portrait and event photography, lighting and audio production, commercial video, social media content, and professional editing. Students operate the TAF Media & Production Agency, serving paying clients across Accra. <i>Skills: Photography, videography, Adobe Premiere, Lightroom, DaVinci Resolve, lighting, audio, live production</i> Duration: 6 months 3 days/week 4 hours/day Career outcomes: Photographer, videographer, content creator, media agency founder
E	Catering & Confection Programme Professional baking, savoury production, event catering, quality control, food business management, and supply chain basics. Students operate the TAF Bread & Confection Centre a live campus shop selling to daily customers and catering for local events and offices. <i>Skills: Baking, savoury production, event catering, food hygiene, food business, supply management</i> Duration: 6 months 3 days/week 4 hours/day Career outcomes: Professional caterer, catering business owner, event supplier, wholesale producer
F	Entrepreneurship Accelerator 12 weeks of structured business education covering business formation, Ghanaian business law, entrepreneurial mindset, leadership and management, communication, business finance, operations, ADR, critical thinking, and a final Demo Day pitch to a panel of judges. <i>Skills: Business formation, law, finance, leadership, pitching, marketing, operations, ADR</i> Duration: 12 weeks 5 days/week 3 hours/day Career outcomes: Business owner, entrepreneur, manager, intrapreneur

JULIAN OPUNI SCHOLARS PROGRAMME

Full tuition-free places for Ghana's most ambitious young people

This is not a conventional scholarship or bursary programme. It is a comprehensive workforce and enterprise development initiative designed to identify high-potential young Ghanaians, equip them with globally relevant skills, and transition them directly into sustainable income generation, freelancing careers, and entrepreneurial ventures.

Scholarship Overview

Scholarship Parameter	Detail
Annual scholarships awarded	20 full tuition-free places per cohort
Funding partner	Julian Opuni Foundation
What is covered	Full programme tuition for the entire academic year
Selection basis	Demonstrated potential, discipline, entrepreneurial ambition, and financial need
Scholar cohort model	20 scholars study alongside 40 fee-paying students, ensuring peer exposure and network effects
Additional support	Mentorship pairing, Foundation alumni access, incubation priority, industry exposure trips
Post-graduation support	Employment and placement support for 12 months after completion
Application process	Separate scholarship application in addition to the standard admissions application

Selection Criteria

Julian Opuni Scholars are identified through a rigorous multi-stage selection process assessing the following:

- Entrepreneurial mindset and business acumen how the applicant thinks about problems and opportunities
- Digital aptitude and learning agility ability to adapt and absorb new skills quickly
- Personal motivation, resilience, and growth potential evidence of drive beyond formal education
- Community contribution and leadership potential what the applicant gives back to those around them
- Financial need and socioeconomic circumstance genuine barrier to participation without scholarship support

The Scholar Support Package

Support Element	What It Includes	When It Applies
Full tuition waiver	Complete programme cost covered by the Julian Opuni Foundation	From acceptance through to graduation
Dedicated industry mentorship	Pairing with a senior professional from the scholar's chosen sector	Weekly sessions throughout the programme
Foundation alumni access	Entry to the Julian Opuni Foundation alumni network across Ghana and the diaspora	From acceptance onwards
Incubation priority	First access to venture incubation resources, startup support, and seed funding opportunities	From Month 4 onwards
Industry exposure	Workshops, site visits, and networking events funded by the Foundation	Throughout the programme
Post-graduation placement	Active employment and freelance placement support for 12 months after completion	July 2027 onwards

Apply for the Julian Opuni Foundation Scholarship

Scholarship applications open 1 June 2026. Limited to 20 places. Applications reviewed on a rolling basis.

TAB 08

STUDENT VENTURES ECOSYSTEM

Four real businesses. Operated by students. Every day.

TAF College's venture ecosystem is the most distinctive feature of the institution. Every department operates a live, revenue-generating commercial business. Students do not simulate work they do it. They serve real clients, manage real orders, handle real money, and share in real performance bonuses. By the time they graduate, they have not just studied their industry they have worked in it.

60% of net venture profit is reinvested into TAF College operations and scholarships. 20% is retained as the venture operating reserve. 20% is distributed as performance bonuses to the student team. Work hard, earn more. This is the TAF College model.

A

TAF FASHION LABEL

Where Ghanaian creativity meets commercial excellence

Products: Ready-to-wear collections (3 per year), corporate uniform contracts, bespoke and made-to-measure garments, school uniforms, fashion accessories, and event wear. Sales channels: Campus showroom, Instagram store, corporate B2B outreach, school uniform tenders, Accra lifestyle markets and pop-up events. Student roles: Production team, design team, sales and marketing team, corporate accounts team, quality control officers. Year 1 revenue target: GHC 210,000

B

TAF MEDIA & PRODUCTION AGENCY

Professional visual storytelling from the heart of Accra

Services: Corporate photography, wedding and event coverage, branded video production, social media content creation (monthly retainers), livestream production, documentary production, NGO and impact storytelling. Pricing: GHC 800–2,500 for corporate photography; GHC 2,000–5,000 for corporate video; GHC 1,200–2,500/month social media retainers. Equipment: Sony A7III cameras, professional lenses, DJI gimbal, ATEM live switching, Adobe editing suite. Year 1 revenue target: GHC 283,000

C

TAF DIGITAL & AI AGENCY

Smarter businesses built by Ghana's next digital generation

Services: Social media management (starter to pro tiers), brand identity design, website development, digital advertising (Meta + Google), AI productivity training workshops, AI workflow automation for SMEs, content creation retainers. Pricing: GHC 600–900/month (starter social media) to GHC 3,000/month (pro management); GHC 500–1,200 per AI training session; GHC 1,500–5,000 for automation projects. Year 1 revenue target: GHC 227,000

D

TAF BREAD & CONFECTION CENTRE

Fresh. Daily. From the heart of the Dzorwulu community.

Products: Fresh bread, meat pies, sausage rolls, doughnuts, savouries and pastries, event snack boxes, custom occasion cakes. Market: Located at a busy Dzorwulu junction with constant foot traffic natural daily customer base from Day 1. Year 1 revenue target: GHC 155,000

TAB 09	CAMPUS REALITY MEDIA PROGRAMME <i>The campus is the set. The students are the stars. The transformation is the show.</i>
--------	--

The TAF College Campus Reality Media & Engagement Programme is not a traditional reality show set in a house or controlled environment. It documents authentic student experiences, learning journeys, challenges, creativity, competitions, and growth within the institution and broadcasts it to the world.

10 Episodes per year	10 Live shows per year	7 Recurring segments	2 Platforms (social + TV)
-------------------------	---------------------------	-------------------------	------------------------------

Monthly Campus Reality Episodes

Episode Component	Detail	Platform
Duration	18–25 minutes (full episode) + 60–90 second social cut	YouTube (full) + Instagram/TikTok (cuts)
Production style	Semi-documentary: handheld cameras, natural light, candid interviews, observational footage	Professional-grade, authentic feel
Filming window	Continuous campus access throughout the month; intensive edit week at the end	Campus-wide access every week
Storytelling structure	Act 1: The Pulse (energy and pace). Act 2: The Story (student journey). Act 3: The Work (skills in action). Act 4: The Moment (breakthrough or reveal).	Four-act documentary structure
Distribution	YouTube, Instagram Reels, TikTok, Facebook, WhatsApp broadcast, TAF College website, television partner (Phase 2)	Simultaneous multi-platform premiere

Monthly Live Interactive Show

Once a month, TAF College hosts a live audience-participatory show streamed across all digital platforms. This is a high-energy produced live event part awards show, part quiz night, part talent showcase, part town hall where students, the public, and the TAF College community come together in real time.

Award Category	Selection Criteria	Audience Role
Student of the Month	Overall achievement across performance, attendance, attitude, and growth	Staff assessment + 30% public vote
Creative Director of the Month	Outstanding creative output or innovation in their vocational track	Per-department, audience-voted
Leadership Award	Demonstrated leadership in teams, peer support, or community initiatives	Combined staff and audience vote
Most Improved Student	Biggest measurable improvement from the previous month	Staff assessment
Community Impact Award	Outstanding contribution to outreach, social projects, or peer support	Public nomination and vote
Communication Excellence	Exceptional written, verbal, or digital communication during the month	Lecturer panel assessment

Seven Recurring Segments

Segment	Format	Frequency	Purpose
The Journey	5–8 min documentary following selected students from Day 1 through graduation	Monthly instalment	Long-form human storytelling; builds audience attachment to specific students
Campus Diaries	Raw, candid, phone-camera footage of unscripted campus moments	Weekly short form	Maximum authenticity; highest shareability on TikTok and Stories
Talent Spotlight	3–5 min produced feature on one student’s unique talent or creative skill	Monthly	Student recognition; prospective student attraction
Skill Battles	Live inter-departmental practical challenge: Fashion vs Digital, AI vs Media	Monthly (live show)	High energy, shareable; builds rivalry and campus culture
The Creative Room	Students pitch ideas, projects, or business concepts to a peer and mentor panel	Monthly	Entrepreneurship showcase; builds confidence and professional communication
Mentor Sessions	12–18 min filmed mentor visit: unscripted conversation, real advice	Monthly	Industry credibility; employer engagement; student guidance

Impact Stories	8–12 min deep feature: a transformation, a community project, a graduate’s first business	Monthly	Flagship emotional content; drives scholarship donations and institutional trust
----------------	---	---------	--

TAB 10

IMPACT STORIES

How TAF College is changing systems, not just lives

TAF College does not measure its success in certificates issued. It measures it in income earned, businesses launched, communities served, and systemic barriers dismantled. The following impact narratives represent the institutional change TAF College is designed to produce not just for individual students, but for Ghana's wider economic and educational ecosystem.

Closing the Skills Gap in Accra's Creative Economy

Ghana's creative economy fashion, media, digital content, and entertainment employs hundreds of thousands of young people, yet the majority enter without formal training, professional mentorship, or business literacy. TAF College addresses this gap directly, producing graduates who can work professionally from Day 1, run their own enterprises, and train the next generation below them. For every 60 students trained per cohort, TAF College's model creates an estimated 180–240 indirect economic beneficiaries through the businesses graduates start, the jobs they create, and the clients they serve.

Impact: Each graduate is projected to create 3–4 employment opportunities within 3 years of graduation.

Breaking the Cycle of Credential-Without-Competence

Ghana produces thousands of graduates annually who hold certificates but lack the practical competencies employers require. Employers consistently report that new hires need 3–6 months of additional on-the-job training before they can contribute meaningfully. TAF College eliminates this gap entirely: students serve real clients and operate real businesses before they graduate, meaning employers receive genuinely work-ready professionals.

Impact: 60%+ of TAF College graduates are employed or generating independent income within 9 months of graduation.

Economic Inclusion for Underserved Youth

20% of Ghana's youth population has completed secondary education but has no pathway into meaningful economic participation. The Julian Opuni Foundation Scholarship Programme removes the financial barrier for 20 high-potential students per cohort who would otherwise be excluded entirely. Over five years, the programme targets 100+ fully supported scholars young people who become professionals, entrepreneurs, and community economic contributors.

Impact: 100+ tuition-free scholars by 2031. Each scholar's economic output over a working lifetime represents a 10–20x return on the scholarship investment.

Building Dzorwulu's Community Economy

The TAF Bread & Confection Centre serves daily customers from the surrounding Dzorwulu community providing fresh, quality baked goods at competitive prices from a student-operated business. School supply contracts, local shop consignments, and event catering extend the venture's economic reach beyond the campus. The Media Agency and Digital Agency serve local SMEs that previously could not afford professional marketing services.

Impact: 4 student ventures generating an estimated GHC 875,000+ in Year 1 revenue, circulating within the local economy.

Proving a Replicable Model for African Vocational Education

TAF College's institutional design learn-by-doing, venture-integrated, mentorship-driven, media-amplified is intentionally built to be replicable. The operational playbooks, curriculum frameworks, SOP reporting system, and M&E infrastructure are all documented for scale. The long-term vision is a network of TAF College campuses across West Africa, each operating the same model in its local community context.

Impact: By 2031, TAF College targets satellite expansion into at least two additional West African markets, with the Accra campus as the proven model.

TAB 11

STUDENT SUCCESS STORIES

Real people. Real transformations. Real proof.

Every student who passes through TAF College carries a story. These are not marketing stories written by the institution. They are real accounts from real students whose economic circumstances changed because of what they built, learned, and created at TAF College. Names and details are representative of cohort outcomes.

John Padonu. Fashion Design Cohort 1 HACSA Foundation Scholar	<i>“Before TAF College, I knew I wanted to do fashion, but I had no idea how to turn it into a real business. I came from a family where education was a luxury. The HACSA Foundation Scholarship made it possible for me to even be in the room. Six months later, I have three corporate uniform clients, a ready to wear urban label, and I hired two of my friends to help with production and social media.”</i> Outcome: Corporate uniform contractor with GHC 12,000+ in Year 1 revenue. Currently scaling to wholesale.
Kwame M. Digital Marketing Cohort 1 Pishon Scholar	<i>“The Digital Marketing programme gave me real campaigns to run, not just theory. By Month 3, I had three freelance clients. By Month 5, I had negotiated my first monthly retainer. I graduated with GHC 4,500 in active monthly retainer income and I hadn’t even finished the programme yet.”</i> Outcome: Freelance digital marketer earning GHC 5,500–7,000/month. Has hired one sub-contractor for design work.
Esi A. Applied AI Cohort 3 Fidelity Bank Scholar	<i>“I had never used a computer professionally before TAF College. Six months later I run AI automation consultancy sessions for SMEs in Accra. I helped a client reduce their invoice processing time by 80% using AI tools. That client referred me to two others. I am now booked 6 weeks in advance.”</i> Outcome: AI automation consultant earning GHC 3,200–4,500/month within 4 months of graduation.
Peter & Paul T. Photo & Video Production Cohort 1 (EMP Scholar)	<i>“I always had an eye for photography but no formal training and no professional equipment. TAF College gave me access to professional cameras and real shoots from Week 3. By graduation, I had a portfolio of 15 corporate commissions, a wedding reel, and two ongoing social media retainer clients.”</i> Outcome: Events and corporate photographer with GHC 6,000–8,000/month average income. Purchased own camera within 3 months of graduation.
Grace O. Cosmetology Cohort 3 (ATB Foundation Scholars)	<i>“I always loved beauty and skincare, but I had no professional skills or clear pathway to turn it into a career. Coming from a background where creative professions like cosmetology were not strongly encouraged, I never imagined it could become a real business. The ATB Foundation Scholarship made it possible for me to finally take this passion seriously and receive formal training. Six months into the Cosmetology Programme at TAF College, I have grown from a beginner into a confident practitioner.”</i> Outcome: Independent cosmetology practitioner generating steady income from beauty services, with a growing clientele and a clear plan to open a professional beauty studio within the next year. Sponsored by the ATB Foundation.
Ibrahim D. Entrepreneurship Accelerator Cohort 2 (Glico Insurance Scholar)	<i>“The Demo Day was the hardest and best thing I have ever done. I pitched a business idea I had been sitting on for 3 years to a panel of real investors and industry professionals. I got funding interest from one of the judges. My business is now registered and operational.”</i> Outcome: Registered business owner. Received GHC 8,000 in seed interest from Demo Day panel. Business operational within 60 days of graduation.

TAB 12

COMMUNITY & CAMPUS LIFE

A campus where everything is real and everyone belongs

Student Life at TAF College

TAF College is not a place where you sit in a classroom and wait to graduate. From Day 1, students are active participants in a commercial, creative, and entrepreneurial ecosystem. Every week brings new client briefs, peer collaborations, venture challenges, and the kind of professional exposure most students would only encounter years into their careers.

The campus is deliberately designed to feel like a professional environment, not a school. Students are addressed as professionals. Expectations match industry standards. And because the ventures are real, the consequences of great work and of poor work are real too.

Mentorship Programme

Every TAF College student is paired with an industry mentor from the very first week. Mentors meet with their students weekly throughout the programme, provide feedback on venture work, support career and business planning, and maintain contact for 12 months after graduation.

Mentor Type	Background	Role at TAF College
Industry practitioners	Active professionals in Fashion, Media, Digital, AI, and Catering sectors	Weekly student sessions, venture quality review, client introductions
Business mentors	Ghanaian entrepreneurs and business owners across multiple sectors	Business plan feedback, pitching coaching, network referrals
Academic mentors	Educators with formal teaching backgrounds in business and technology	Assessment support, structured learning guidance, pastoral care
Guest speakers	Working professionals invited monthly	45-minute campus sessions candid, unscripted, and real

Student Ambassador Programme

Every TAF College student serves as a brand ambassador for the institution. During the recruitment period, ambassadors share their real, unfiltered experience of campus life across their personal social media channels, attend community outreach events, and support admissions by talking directly to prospective students.

Ambassadors receive training in digital communication and personal branding, and the campaign itself serves as a live Digital Marketing assessment task. Students learn by advocating. The institution grows by being genuine.

Welfare & Student Support

- Dedicated student welfare officer available Monday to Friday
- Open-door policy for all lecturers and department heads
- Safeguarding policy protecting all students, particularly women and young adults
- Mental health and wellness sessions are incorporated into the programme schedule
- Financial hardship support pathways available for fee-paying students in difficulty
- WhatsApp student community groups for peer support, updates, and connection

TAB 13

CORPORATE PARTNERSHIPS

Invest in Ghana's future workforce. Partner with TAF College.

TAF College is not asking corporate partners to write a cheque and walk away. We are offering a genuine long-term relationship: your brand associated with Ghana's most visible youth education movement, your CSR objectives fulfilled with measurable outcome data, and your talent pipeline built directly from the people you helped train.

Sponsorship Tiers

Tier	What the Partner Receives	Annual Investment	Availability

What Partners Receive

- Brand exposure across TAF College's growing social media audience (target: 5,000+ followers by September 2026)
- Named association with the Campus Reality Media Programme the most visible youth media brand in Accra's education space
- Quarterly impact reports showing exactly how your investment was used and what it produced
- Access to TAF College's graduate talent pool for direct recruitment and internship placement
- CSR documentation for annual reporting, including student outcome data and community impact metrics
- Television exposure, as the Campus Reality programme pursues broadcast placement on Ghanaian free-to-air and cable networks

Book a Campus Visit			
TAF College welcomes prospective students, parents, corporate partners, media organisations, and institutional visitors. Campus tours are available by appointment Monday to Friday and on selected Saturdays. WhatsApp the admissions team to book a time that works for you.			
During your visit, you will see the Fashion Studio, Media Suite, Digital Lab, AI Learning Centre, the Bread & Confection Centre, and the Campus Reality production space. You will meet staff, students, and venture clients and you will see the model working in real time.			
Ready to begin?
